TECHNICAL SKILLS

Languages & Core: Python, JavaScript, SQL, MongoDB, HTML/CSS, OOP

Web Technologies: React.js, Node.js, Express, REST APIs, Tailwind CSS

AI & Machine Learning: Basic AI&ML

Concepts: System Design, DSA, Computer Networks, Operating System

EXPERIENCE

Full Stack Developer Intern

may 2026 –June 2026

Codify infotech (Onsite)

Surat, Gujarat

- ✓ **Backend Development & API Integration:** Developed and optimized RESTful APIs using Node.js and Express.js to handle data flow between the client-side application and the database.
- ✓ **Database Management:** Worked with MongoDB to manage collections, perform CRUD operations, and ensure efficient data storage for application modules.
- ✓ **Frontend UI Implementation:** Built dynamic and responsive user interfaces using React.js/Next.js and Tailwind CSS, improving user experience across multiple screen sizes.
- ✓ **State Management & State Handling:** Implemented robust client-side state management and integrated API testing workflows using tools like Thunder Client/Postman to identify and resolve parsing and request-handling bottlenecks. **Version Control:** Collaborated within a team environment using Git and GitHub for version control, code reviews, and managing deployment branches.

PROJECTS

Personal Portfolio & Developer Dashboard (MERN Stack) Link: [<https://github.com/chandanpanigrahi45/my-portfolio>] | [chandan-panigrahi-dev.onrender.com]

- **Full-Stack Architecture:** Developed a dynamic personal portfolio and content management system using the MERN stack (MongoDB, Express.js, React, Node.js).
- **Dynamic Content Management:** Built a secure admin dashboard to dynamically add, update, and delete projects, skills, and resume details without modifying frontend code.
- **Responsive UI/UX:** Designed a modern, fully responsive user interface using React and **Tailwind CSS**, featuring custom terminal-like code cards and seamless grid layouts.
- **RESTful APIs & Validation:** Formulated secure backend RESTful APIs with Express.js, implementing proper JSON parsing and error-handling middleware (body-parser) to handle client requests seamlessly.
- **State Management & Optimization:** Integrated dynamic state management on the client side, ensuring quick page loads, smooth reveal animations, and interactive client-to-server data communication.

Library Management System (Backend API) Link: [https://github.com/chandanpanigrahi45/Library_management_system]

- **RESTful API Architecture:** Designed and implemented a scalable backend system using **Node.js** and **Express.js** to handle core library workflows and book inventory management.
- **API Testing & Debugging:** Configured and rigorously tested end-to-end server responses, status codes, and payload integrity using **Thunder Client** and Postman to ensure seamless client-to-server data communication.

EDUCATION

Uka Tarsadia University, CGPIT

Bardoli, Gujarat

B.Tech in Computer Engineering; CGPA: 8.80

Jul 2023 – Jul 2027

ACCOMPLISHMENTS

Hackathons: SIH Participated(2025) .

DSA Proficiency: Basic DSA with 10-20 Problem solved(Python)

Certifications: SVNIT Drone Bootcamp, Python .[View](#)
